

HOW TO CONFIGURE MY NETTELLER

After you have successfully logged in to NetTeller for the first time, you have the ability to customize your homepage for quick access to frequently used functions.

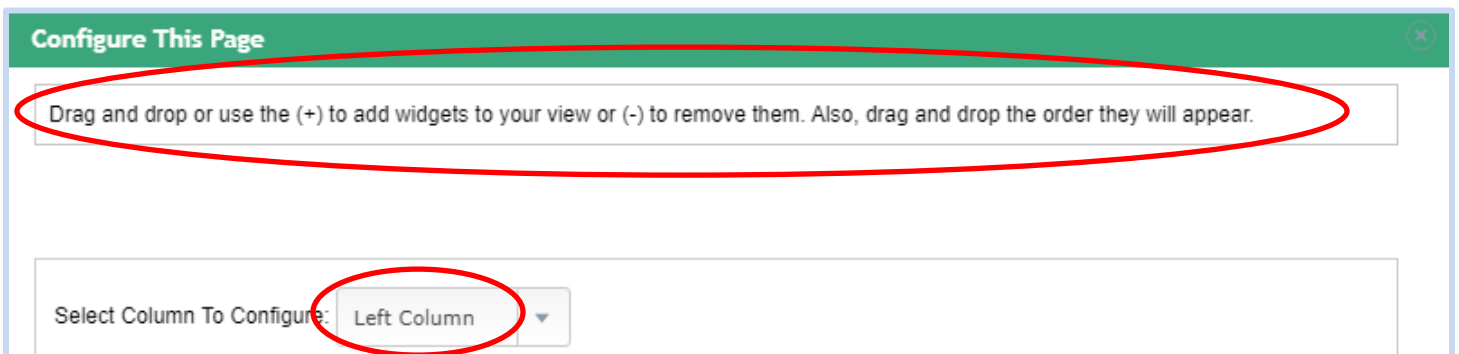

Step 1 Access My NetTeller

- Click the My NetTeller Tab under NetTeller.
- Click the link to *Configure This Page*.

Step 2 Configure Page

- Choose which widgets (functions) you would like to access on the Left, Center, and Right Columns and Click *Save*.

- Utilize the  icon to configure individual widgets.

Step 3 Set As Start Page

- Once all configurations have been made, check the box to set My NetTeller as your start page.
